# NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

REMARKS

The figures of births and deaths shown in this statement for week ending the 13th September 1952, relate to 193 towns with an estimated population of 24,408 thousands. The total number of towns is 281 and their population is 34,764 thousands. Thus 69% of the total number of towns representing 70% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 14,717 and 8,790 representing birth and death rates of 31.4 and 18.7 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 156 towns with an estimated population of 19,942 thousands. Information about Assam, Bihar and West Bengal could not be included. The total number of towns is 235 and their population is 29,570 thousands. Thus 66% of the total number of towns representing 57% of the total population is covered. The numbers of births and deaths recorded in

these towns were 12,286 and 7,528 representing birth and death rates of 32.0 and 19.6 per thousand of population respectively.

Hathras in Uttar Pradesh was the only town which had a high death rate of 63.7 per thousand of population and this high death rate was mainly due to deaths from fevers and dysentery and diarrhoea.

(E) States (Part B).—The data here relate to 37 towns with an estimated population of 4,466 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 80% of the total number of towns representing 86% of the total population is covered. The numbers of births and deaths recorded in these towns were 2,431 and 1,262 representing birth and death rates of 28.3 and 14.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
